We share your commitment to the preservation of our nation’s land and water.

Alliant Insurance Services: The performance you deserve.
The knowledge that Alliant Insurance Services has gained in more than eight decades of working with many of the top insurance companies in the world provides our highly specialized business and public entity clients with the guidance and high-quality performance they deserve.

As the leading specialty insurance brokerage firm in the nation, our solution-focused commitment to meeting the unique needs of these clients assures the delivery of the most innovative specialty insurance products, services, and thinking in the industry.

Ranking among the 15 largest insurance brokerage firms in the United States, Alliant Insurance Services delivers its products and services through a network of offices in strategic markets nationwide and affiliate offices worldwide.
For conservancies and land trusts, preserving the nation’s land and waters is a conscientious effort that requires the vision, hard work, and dedication of many skilled and loyal individuals.

Given the vast amount of land these preservation efforts involve, along with public interest in working with or visiting these areas, conservancies and land trusts are left vulnerable to liability claims from employees, volunteers, visitors, and other guests. In addition, claims arising from wrongful acts or poor business decisions made by a director, officer, employee, or volunteer are also a threat.

The highly knowledgeable professionals at Alliant Insurance Services understand these risks and have created a specialized program—Conserve-A-Nation—to provide the right insurance solution for your organization. Founded in 1994, the Conserve-A-Nation program is the country’s leading supplier of insurance for non-profit 501(c)(3) conservation organizations.

Tailored Program Design and Broad Coverages

When choosing an insurance partner, your organization’s objectives should be at the forefront of program design. The Conserve-A-Nation program offers broader coverages at highly desirable group rates and can be tailored to the specific needs of your organization. Coverages under the program include:

- Property
- General liability
- Workers’ compensation
- Automobile liability
- Umbrella liability
- Special events
- Miscellaneous professional liability
- Volunteer accident coverage
- Directors and officers

An Important Layer of Protection

The range of coverages provided to your non-profit organization under the Conserve-A-Nation program is extended with directors and officers (D&O) liability coverage. Like their counterparts in the commercial world, directors and officers of non-profit organizations are vulnerable to lawsuits stemming from claims of negligence in the performance of their duties. The burden in defending a D&O claim can quickly drain the badly needed financial resources of a non-profit organization and even threaten the personal assets of directors, officers, and trustees.

The D&O coverage provided through Conserve-A-Nation provides a full legal defense, including legal fees covered within the policy limits and representation by an attorney experienced in D&O liability.

We Share Your Focus

Alliant Insurance Services shares your organization’s commitment to land preservation and created Conserve-A-Nation specifically to answer a need for an insurance solution for conservation non-profit organizations.

Conserve-A-Nation has more than 1,300 participants, with 80 percent of members comprised of local, state, and national land trusts.

The program is underwritten by The Chubb Group of Companies, an A.M. Best ‘A++’ (superior) rated carrier, and is endorsed by the Land Trust Alliance, an organization dedicated to the effectiveness and sustainability of the nation’s land trusts and their use of conservation easements.
